Richard, You just sent this press release, which suggests that you too are awake. My boyfriend is horrified by the noise your email made and by the fact that I am calling someone with a man's name, repeatedly, at this hour.

Please stop ruining the one good thing in my life by answering basic, basic questions and being actually available to the press. I am not A-game. I am firmly B-game. But Rich, love is on the line. PLEASE. Ruining young reporters' lives with anxiety cannot be the EPA's media strategy.

Call, yo.  
x chase
